Congratulations for choosing  
**LMArte™ Dark Diamond™**

## *Enjoy your new set of instruments!*

LM-Arte™ Dark Diamond™ set of instruments is the crown jewel of Stylelitaliano™ and LM-Dental™ collaboration featuring exclusive coating for non-stick placement and sculpting of composite resins. The dark color of coating offers maximum contrast, and extremely hard and smooth surface allows for pleasant and precise restorative instrumentation.

“ When we founded Stylelitaliano™, we noticed a lack of high-quality instruments for creating beautiful direct restorations. With LM™’s dedication to manufacturing excellence, we developed the unique concept of LM-Arte™ instruments

designed especially for composite layering. With excellent tactile sensitivity and easy instrumentation provided by LM™’s pioneering handle design, has LM-Arte™ been a breakthrough in esthetic dentistry.

We want to congratulate LM-Dental™ for 50 years anniversary, and thank you for being a valued partner.

*Dr. Angelo Putignano*
