# **Ultrasonic device**

### Control panel:

## To **turn on the scaler**, press **ON** and then choose the right working mode that is marked on each tip: $\overbrace{40\%}^{\text{Or}} \text{ or } \overbrace{70\%}^{\text{Or}} \text{ or } \overbrace{100\%}^{\text{OV}}$ With every push on the **ON** key, the function toggles from:

- 1. Scaling with water
- 2. Dry mode: scaling without water
- 3. Irrigation mode: just water, no
- scaling

The unit is **standby** when the power cord is connected and the green LED is illuminated.

#### Comprehensive cleaning function:

The cleaning function can be started by pressing **C**. Water or desinfectant cleans the water line and handpiece. The cleaning cycle stops automatically after **80 seconds**.

To switch off the device push the  $\ensuremath{\mathsf{OFF}}$  key .

#### Water regulation:

Depress the foot control in the leftmost position and adjust the water flow with the control ring on the scaler handpiece until the water is dripping.

#### Foot control:

The scaler is **activated** when the foot control is pressed down. The power is regulated from left/ZERO to right/MAX within the chosen working mode. **In ZERO position** there are two functions: a) irrigation with no scaling power: hold the footpedal down. b) diagnostic light: press the footpedal once.
